WHAT SAVING in PLUMBERS' WORK

is effected by the use of JENNINGS'S INDIA-RUBBER TUBE WATER-CLOSETS, which are made to ACT FROM THE MAIN, or a COMMON SERVICE PIPE.

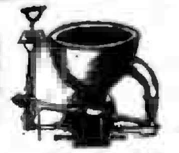

Fig. 1.—OPEN.

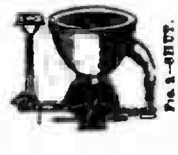

Fig. 2.—SHUT.

1. No service box is required.
2. No valve is necessary.
3. No air-pipe is wanted.
4. No lever, cranks, or wires, are requisite.
5. No separate service pipe is necessary.
6. Not only are the above articles actually saved, but all the labour attendant on the fixing and soldering in the same.

SUPERIOR GLAZED STONEWARE DRAIN

PIPES, invented and manufactured by

WILLIAM NORTHEN, UNION POTTERY, No. 14, VAUXHALL-WALK, LAMBETH.

W. NORTHEN begs to inform surveyors, contractors, builders, water companies, &c., that he has completed "Spencer's" new patent machinery for making GLAZED STONEWARE DRAIN PIPES, JUNCTIONS, BENDS, ELBOWS, SYPHON-TRAPS, &c. &c. Amongst the many advantages of pipes made by this machinery over all others may be mentioned, that it insures perfect uniformity in form and size, both of pipes and sockets, the dies being of a different and better construction than any others now in use; and the pipes and sockets being made by one process are secure from separation.

W. N. invites particular attention to the superior quality of the glaze used in his manufacture, which is equal to glass, and renders stoppage in the drains impossible. CLOSET PANS, with loose and fixed traps, and improved inside white glaze.—W. NORTHEN'S PIPES MAY BE INSPECTED AT THE FOLLOWING PLACES, WHERE ORDERS ARE RECEIVED:—

Martin and Wood's, Market Wharf, Regent's Park Basin.—J. C. Hilton's, Crown and Horseshoe Wharf, No. 6, Upper Thames-street.—Long and Son, Richmond.—Charles Richardson's, South Wharf, Paddington.—G.
